# Bearicuda Admiral Plastic Dumpster Warranty

Dear Valued Customer,

Thank you for your business, it is greatly appreciated. This is a quick reminder of some of the guidelines to follow that will help ensure your dumpsters remain covered under warranty and allow us to process any warranty claims promptly.

1. Upon receiving your shipment of dumpsters, ensure all necessary components (lids, casters, etc.) are present.
2. Do not stack more than 3 front load dumpsters together when storing.
3. Do not stack more than 5 rear load dumpsters together when storing.
4. If storing outdoors, take necessary precautions to prevent containers from becoming full of water.
  - Install and close lids, especially on the top dumpster in a stack of dumpsters.
  - If drain plugs are installed, remove the plugs to allow any water collected to drain efficiently.
5. Do not install any 3rd party accessories without prior authorization.
  - This does not pertain to any cosmetic alterations such as graphics etc.
  - Any holes, screws, rods, etc. added without prior authorization can void the warranty.
